Release handoff: Search filters

The release adds a status filter to the issue list. Verify the following before sharing the release notes.

Check	Expected result
Open issues	Closed issues are hidden
Clear filter	All issues are visible
Reload	Selected filter remains active

Reproduce the request

```
curl 'https://example.com/issues?status=open'
```

The URL above is an illustrative request. Replace the hostname with your own when testing.

Read the Markdown syntax reference.
